

BRIMAR[®]

COMPANY For nearly three decades Brimar has built an innovative line of decorative trimmings and drapery hardware cultivating signature designs in residential and commercial spaces. Renowned as a leader in the interior design industry, Brimar provides inspiration to transform your vision into reality. As a client, you will receive breadth of product, well-appointed design, endless color possibilities and exceptional quality and value – all hallmarks of the Brimar family of brands.

A premier line of distinguished trimmings and drapery hardware satisfying high-end clients and daily design needs.

Bargia

A sophisticated line of trimmings emphasizing specialty bead fringes and performance trims which complement the Brimar brand.

decofuse

A value-driven line of decorative trimmings and drapery hardware featuring smart designs at affordable prices.

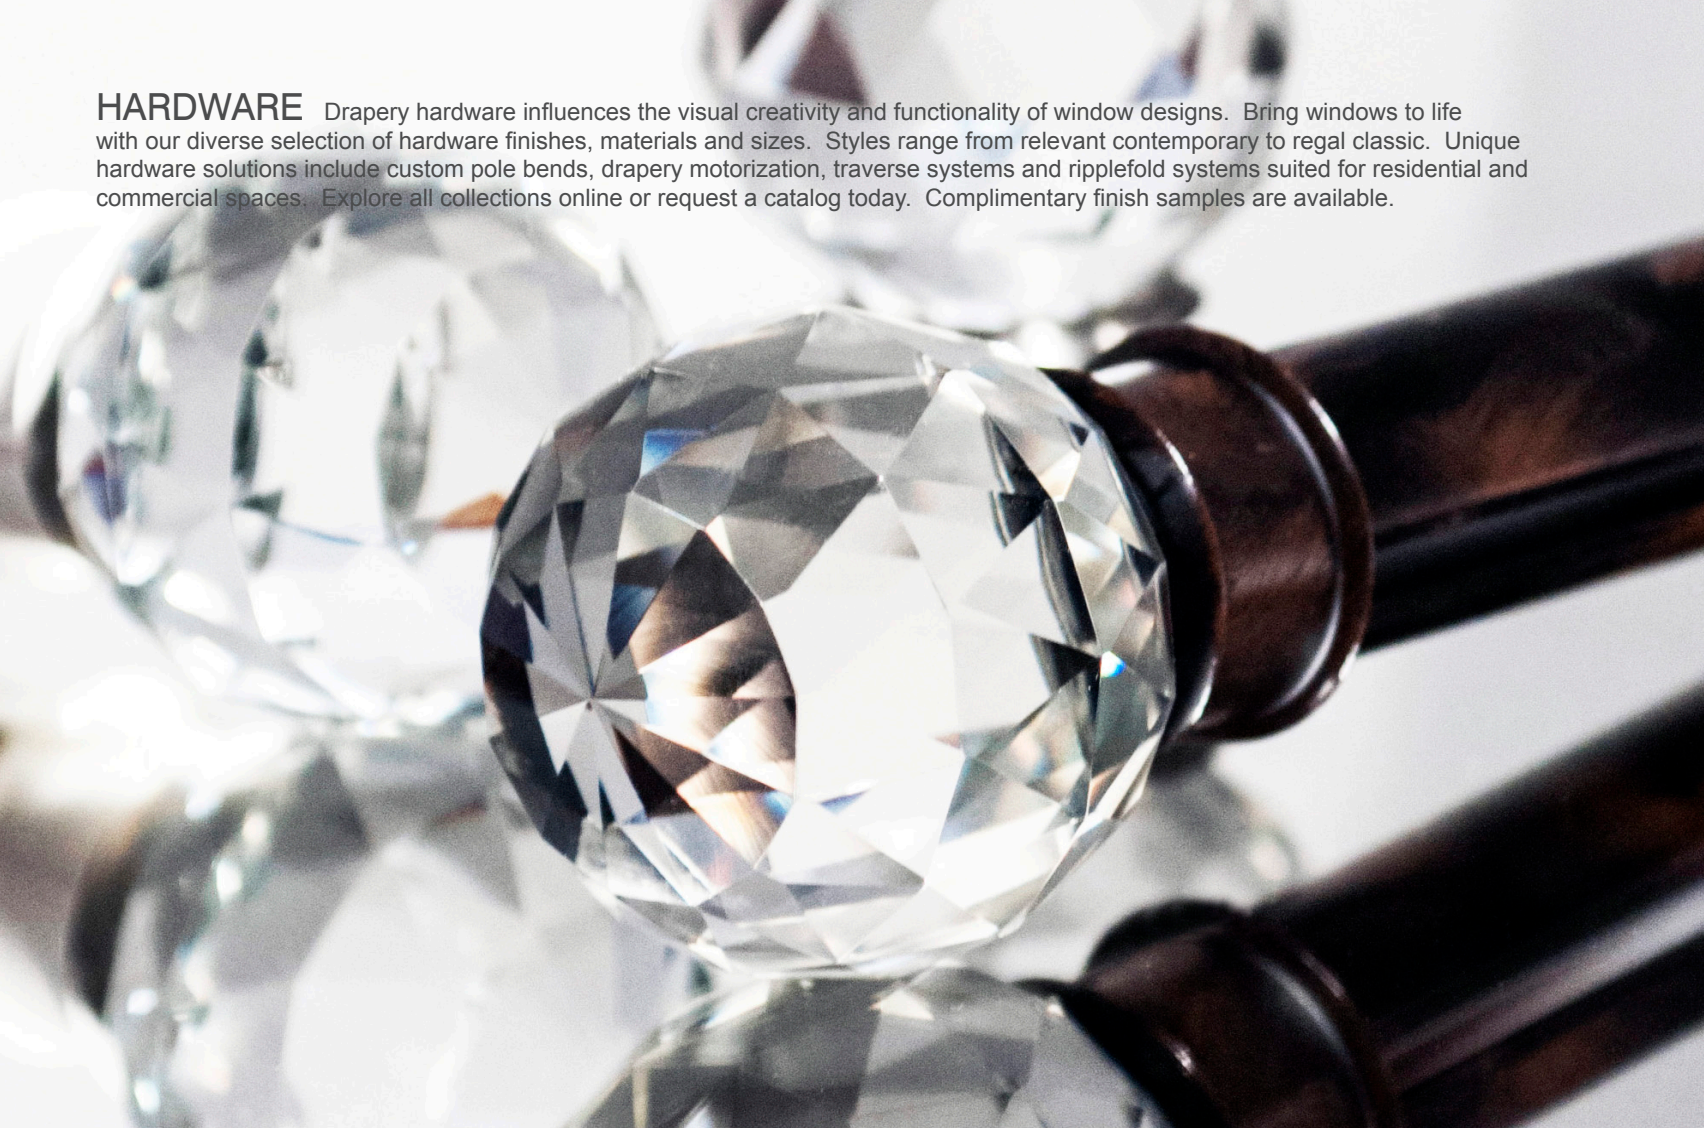

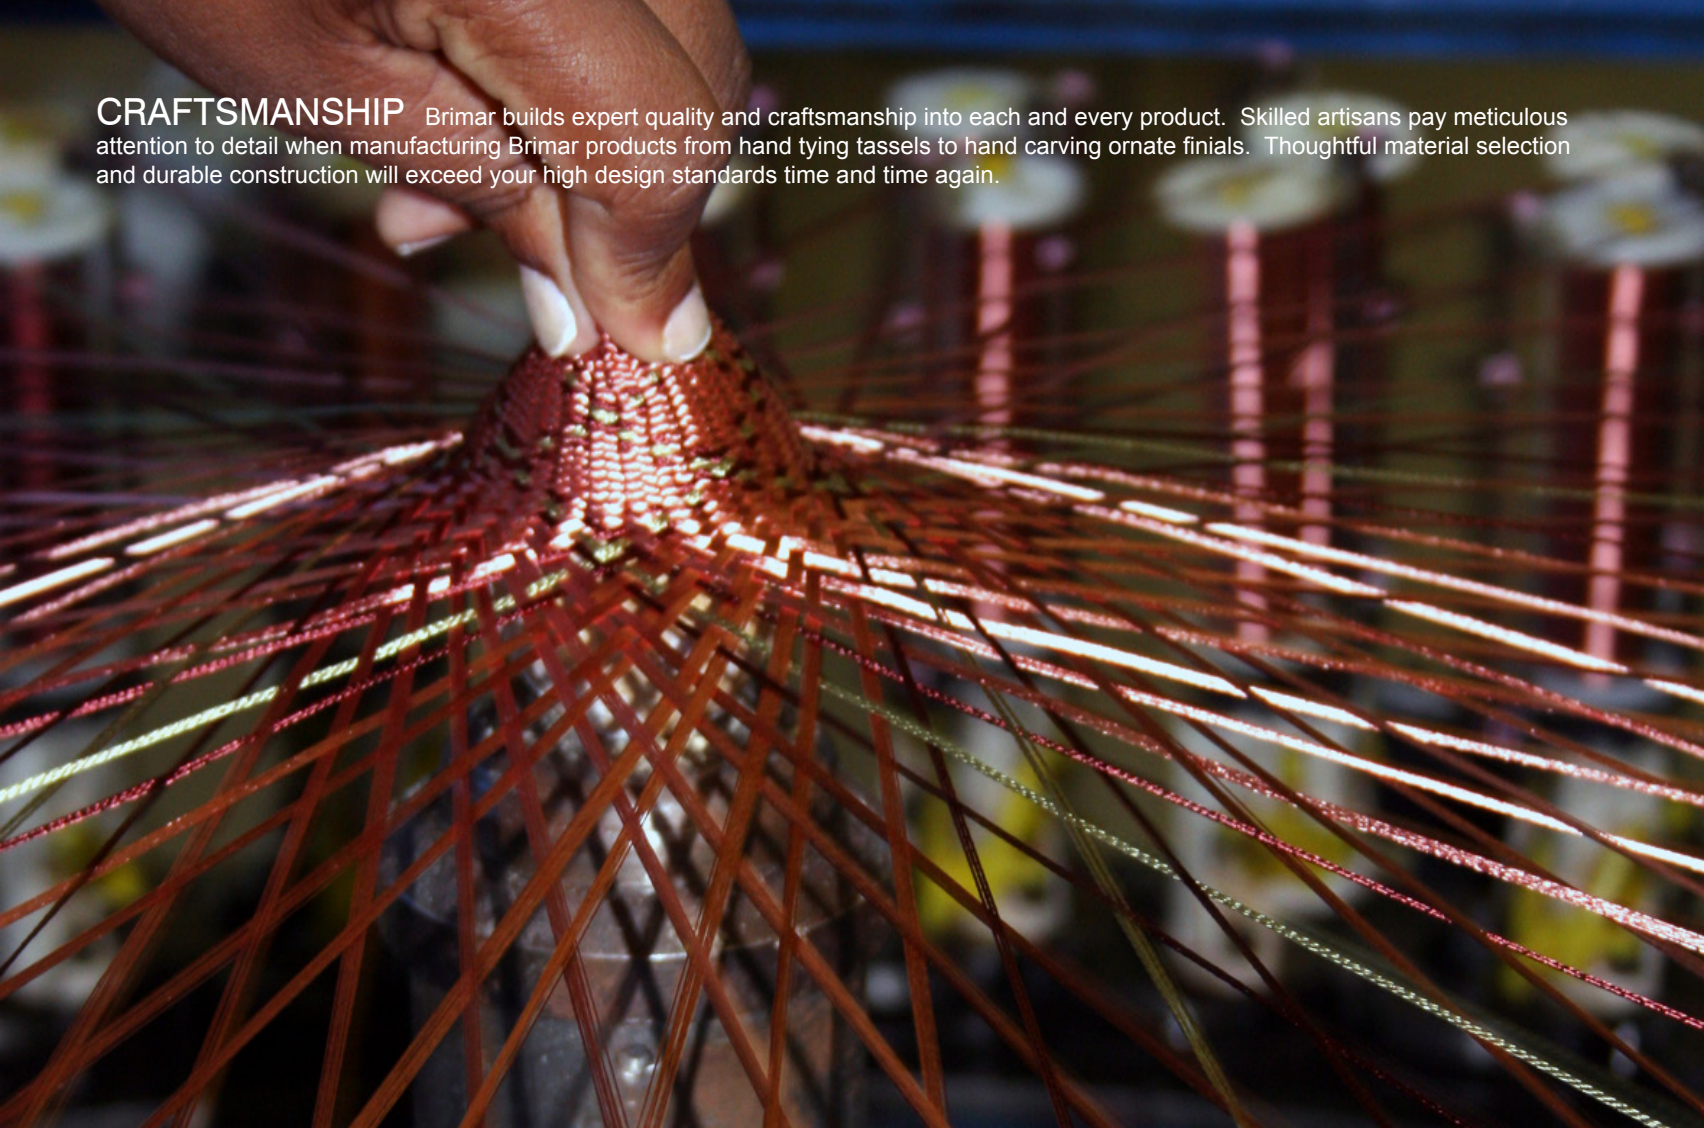

Our brands provide product solutions for every project and price level.

TRIMMINGS Unique details are the catalyst to extraordinary spaces. Decorative trimmings are the creative nuances which achieve remarkable aesthetics in varying room styles. Our sophisticated trims are offered in a diversity of colors and designs - over 8,000 choices. Novelty options include performance trimmings and eco-friendly varieties for your unique needs. Complimentary memo samples are available.

HARDWARE Drapery hardware influences the visual creativity and functionality of window designs. Bring windows to life with our diverse selection of hardware finishes, materials and sizes. Styles range from relevant contemporary to regal classic. Unique hardware solutions include custom pole bends, drapery motorization, traverse systems and ripplefold systems suited for residential and commercial spaces. Explore all collections online or request a catalog today. Complimentary finish samples are available.

CRAFTSMANSHIP Brimar builds expert quality and craftsmanship into each and every product. Skilled artisans pay meticulous attention to detail when manufacturing Brimar products from hand tying tassels to hand carving ornate finials. Thoughtful material selection and durable construction will exceed your high design standards time and time again.

CUSTOMIZATION We offer custom options to satisfy your unique design and performance requirements. Our capabilities include custom bending drapery poles and CS tracks for bay and bow window areas, retrofitting decorative fascias for Brimar motorized drapery tracks, modifying hardware brackets and custom dyeing indoor/outdoor trimmings in a wide variety of colors. Call us with your special inquiries.

SHOWROOMS / SALES REPRESENTATIVES Brimar products are available through a network of design centers and agent showrooms around the world. Satellite locations introduce an added level of convenience for designers to experience Brimar products first hand. To find a showroom location nearest you, visit our showroom map at brimarin.com. To find a Sales Representative in your area, contact Client Services at 800.274.1205

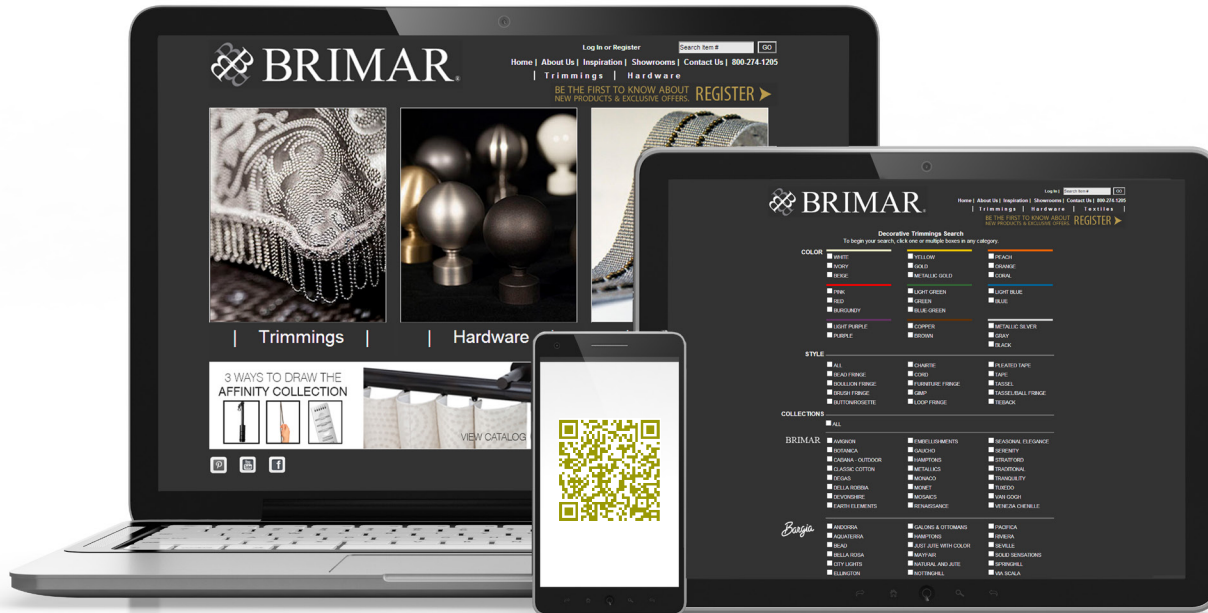

CONTRACT Brimar products are built to withstand the demands of hospitality and commercial spaces. Guest suites, lounges, conference rooms, offices and common areas are perfect candidates for Brimar drapery motorization systems, CS tracks, traverse systems, custom bent poles and performance trimmings. We cater to specifiers, designers and purchasing agents with competitive pricing and a supportive service team.
